

# Success Center Update- 2nd 9 Weeks

F2F or SBDL preference (PLC & Advantage)

## Dear Parents/Guardians,

Our transition to in-person learning for those students who wanted to return to the classroom has gone very smoothly. Words cannot express how deeply I appreciate the support of our students, parents, teachers, staff, and the community.

Almost without exception, students have followed our safety guidelines and have cooperated with a host of new procedures, including a new way to enter our building and maneuver around, all with the expectation of keeping each other safe.

Those students who opted to keep learning from home have been patient as our teachers have learned to juggle teaching online and in person at the same time. We appreciate everyone's flexibility.

Our teachers and other staff members have done an amazing job during this transition. We could not be successful without the whole team.

As we approach the end of the first nine weeks, we are asking for those **School Based Digital Learning or Face-2-Face parents ONLY**, to let me know your learning preference for your child for the second nine-week period, which begins October 8.

You will be contacted by one of your child's teachers to confirm your choice for the second nine weeks of instruction. You will again have the opportunity to change your method of learning for the third nine-week period, which begins **January 6**.

**If you have already decided to keep your child School Based Digital until January just let the teacher know when you receive the call.**

Thank you again for your support as we do school in a new and different way. My hope is that we all learn and grow from this experience and pick up new skills that will benefit us long past COVID-19.

Sincerely,  
Dr. Touchard  
Principal  
Success Center

# Gentle Reminders on COVID 19 Procedures

1. If your child **does not** feel well please keep them home.
2. Students will have their **temperatures checked** before entering the building.
3. Student are **required** to wear a mask while in the school building.
4. We will practice **social distancing** during the school day.
